# CONTENT

## 1. BLOOD

<i>(Věra Křížková, Pavla Šígutová, Daniel Lysák, Alena Štambachová, Nguyen Thu Huyen, Karolína Hrubá, Lenka Vaňková, Jiří Buřka)</i> .....	11
1.1 Hematocrit .....	11
1.2 Reference ranges .....	13

## 2. BLOOD ELEMENTS

<i>(Věra Křížková, Pavla Šígutová, Monika Holubová, Daniel Lysák, Alena Štambachová, Nguyen Thu Huyen, Karolína Hrubá, Lenka Vaňková, Jiří Buřka)</i> .....	14
2.1 Erythrocytes .....	14
2.1.1 Abnormal mature red cells .....	17
2.1.2 Blood group systems .....	21
2.2 Thrombocytes (platelets) .....	24
2.2.1 Abnormal thrombocytes (platelets) .....	25
2.3 Leukocytes .....	26
2.3.1 Differential count of blood leukocytes .....	26
2.3.2 Granulocytes .....	27
2.3.2.1 Neutrophils .....	27
2.3.2.2 Eosinophils .....	31
2.3.2.3 Basophils .....	32
2.3.2.4 Mast cells .....	33
2.3.3 Agranulocytes .....	33
2.3.3.1 Lymphocytes .....	34
2.3.3.2 Monocytes .....	38
2.3.3.3 Dendritic cells .....	40

## 3. PHASES OF HEMATOPOIESIS

<i>(Věra Křížková, Pavla Šígutová, Daniel Lysák, Alena Štambachová, Nguyen Thu Huyen, Lenka Vaňková, Karolína Hrubá, Jiří Buřka)</i> .....	41
--	----

## 4. BONE MARROW

<i>(Věra Křížková, Pavla Šígutová, Daniel Lysák, Alena Štambachová, Nguyen Thu Huyen, Lenka Vaňková, Karolína Hrubá, Jiří Buřka)</i> .....	43
4.1 Processes in bone marrow .....	44
4.1.1 Maturation of erythrocytes, erythropoiesis .....	46
4.1.1.1 Pathological appearance of erythrocytic hematopoietic lineage .....	50
4.1.2 Maturation of granulocytes, granulopoiesis .....	51
4.1.2.1 Pathological appearance of granulocytic hematopoietic lineage .....	55
4.1.3 Maturation of lymphocytes, lymphopoiesis .....	57

4.1.3.1 Pathological appearance of lymphocytes .....	60
4.1.4 Maturation of monocytes, monocytopenia .....	60
4.1.4.1 Pathological appearance of monocytic hematopoietic lineage .....	62
4.1.5 Origin of platelets, megakaryocytopoiesis .....	63
4.1.5.1 Pathological appearance of megakaryocytes .....	65
<b>5. SELECTED METHODS USED IN CYTOLOGY, HISTOLOGY AND HEMATOLOGY .....</b>	<b>66</b>
<b>In clinical medicine .....</b>	<b>66</b>
5.1 Blood smear preparation ( <i>Věra Křtízková, Pavla Šigutová, Alena Štambachová,</i> <i>Karolína Hrubá, Lenka Vaňková, Jiří Buřka</i> ) .....	66
5.1.1 Possible use of blood smears for laser microbeam microdissection .....	69
5.2 Flow cytometry ( <i>Monika Holubová, Martina Dolejšová, Tomáš Vlas,</i> <i>Daniel Lysák, Věra Křtízková</i> ) .....	70
5.2.1 Components of flow cytometer .....	71
5.2.1.1 Fluidics .....	71
5.2.1.2 Optics .....	72
5.2.1.3 Electronics .....	73
5.3 Fluorescent activated cell sorting ( <i>Monika Holubová, Martina Dolejšová, Tomáš Vlas,</i> <i>Daniel Lysák, Věra Křtízková</i> ) .....	78
5.4 Cytogenetics ( <i>Pavel Dvořák</i> ) .....	79
<b>In research .....</b>	<b>82</b>
5.5 Raman spectroscopy .....	82
<b>LITERATURE .....</b>	<b>87</b>
<b>AUTHORS .....</b>	<b>89</b>

Dear colleagues,

We would like to fill in the blank spaces in teaching of histology and embryology with these study materials.

We would like to express our thanks to all colleagues who have given us a piece of advice, inspiration, helped us revise our materials or have supported us in other ways. For help with taking of blood for electron-microscopy, we thank Mrs. Jindřiška Horáková; our thanks go to Assoc. Prof. MUDr. Jitka Kočová, CSc., for the valuable comments on the topics; Prof. MUDr. Milena Králíčková, Ph.D., Prof. Ing. Jaroslav Hrabák, Ph.D., Assoc. Prof. Ing. Jan Nevoral, Ph.D., MUDr. Zdeňka Hajšmanová, RNDr. Pavel Pitule, Ph.D., Ing. Lucie Vištejnová, Ph.D., Prof. MUDr. Václav Liška, Ph.D., MUDr. Jan Brůha, Ph.D., Assoc. Prof. RNDr. Marie Kalbáčová, Ph.D., MUDr. Vladimír Korečko, Ing. Markéta Šlajerová and many colleagues from the Biomedical Center and from the Department of Clinical Biochemistry and Hematology, University Hospital Pilsen for their support with methodology. As a thank-you for inspiration also goes to Ms. Tatiana Andrejová, Prof. MUDr. Mgr. Zbyněk Tonar, Ph.D., RNDr. Alena Němečková, CSc., and Mgr. Alena Kvasilová.

Our thanks belong to MUDr. Mgr. Michaela Brychtová, Ph.D., MUDr. Jana Jeriová, MUDr. Lukáš Bolek, Ph.D., for their previous help with the basic Czech version and Prof. RNDr. Marie Korabečná, Ph.D. (laser microdissection), and Prof. RNDr. Jan Černý, Ph.D. (scanning electron microscopy), for their (micro)photo publishing permission.

We believe these materials may serve to prepare students not only for education in our subject but also for subsequent branches of study, particularly hematology, hematocology, and pathology. That is exactly why we completed the original morphological module (based on the previous MEFANET module) with additional facts, which are beyond our branch.

*Team of authors*

This study was supported by the National Sustainability Program I (NPU I) No. LO1503, provided by the Ministry of Education, Youth and Sports of the Czech Republic, by the grant SVV–2020–2022 No 260 536 and by the grant of Ministry of Health of the Czech Republic (FNPI, 00669806) and the Charles University Research Fund (project number P36).
